Portfolio | LinkedIn | GitHub | nagellasai06@gmail.com | +91 7893903282

Professional Summary

Aspiring Data Analyst with hands-on project experience in **SQL, Excel, Power BI, Python, and exploratory data analysis** through end-to-end analytics projects. Skilled in **data cleaning, SQL-based analysis, KPI reporting, dashboard development, trend analysis, and translating business questions into data-driven insights**. Built analytical solutions for customer retention and supply-chain performance, identifying business risks and operational improvement opportunities.

Skills

Data Analysis : SQL (MySQL), Data Cleaning, Exploratory Data Analysis, KPI Analysis, Trend Analysis, Business Analysis.
BI & Visualization : Power BI, DAX, Power Query, Dashboard Development, Data Visualization.
Excel : Pivot Tables, Lookup Functions, Data Validation, Data Cleaning, KPI Reporting.
Programming : Python (Pandas, NumPy, Matplotlib).
Core Concepts : Business Intelligence, Statistics & Probability, Data-Driven Decision Making.
Tools : Git, GitHub, VS Code.
Soft Skills : Analytical Thinking, Problem Solving, Communication, Business Understanding.

Projects

Customer Churn & Retention Analytics | GitHub — Excel, SQL(MySQL), Power BI

- Analyzed **10,000 customer records** across plans, regions, tenure, usage, payments, satisfaction, and churn reasons to identify retention-risk patterns.
- Cleaned and validated customer data in Excel by removing duplicates, handling missing values, standardizing categories, and correcting data types.
- Used SQL **joins, aggregations, CTEs, and window functions** to analyze churn, revenue, payment behavior, satisfaction, and subscription performance.
- Developed an interactive Power BI dashboard with KPI measures and filters, identifying a **28.75% customer churn rate**.
- Quantified business impact by identifying **2,875 churned customers** and approximately **₹4.62M monthly revenue at risk**.

BharatMart Supply Chain Performance & Delay Analytics | GitHub — Excel, SQL(MySQL), Power BI

- Analyzed 10,000 orders across procurement, inventory, suppliers, warehouses, shipments, and deliveries to identify operational bottlenecks.
- Cleaned and validated supply-chain data in Excel by handling duplicates, missing values, inconsistent categories, and relationship issues.
- Used SQL to calculate operational and fulfillment KPIs across orders worth approximately **₹735.79M.**
- Developed an interactive Power BI dashboard to evaluate performance across regions, priorities, sales channels, ABC classes, and city tiers.
- Identified **4,276 delayed shipments, 34.96% OTIF, 57.24% on-time delivery, and 90.23% fill rate**.
- Evaluated supplier and inventory risks, identifying **57.22% supplier on-time performance** and approximately **₹1.194M in backordered units**.

Education

RGUKT RK-Valley University — 2022 - 2026
Bachelor of Computer Science & Engineering — CGPA : 7.65

RGUKT RK-Valley University — 2020 - 2022
PUC(Maths, Physics, Chemistry) — CGPA : 7.6
